## OIL TEST CASES & CABINETS

### Oil Test Case N°5

**Test Kit to check main parameters of your lube oil**

- Water-in-Oil test for lubricants and fuels
- BN test – alkalinity reserve in engine oils
- Viscosity test – comparison of fresh and used oil
- Spot Test - insolubles and impurities
- Salt Test - nature of water contamination

Oil Test Case N°5 – Test Kit to check main parameters of your lube oil

The oil test case N°5 provides most sufficient tools to determine the quality of your lubricants onsite. No matter if engine oil or else, you get an instant indication.

With TRIBOMAR products at your side you get the expertise to help yourself controlling the operational conditions of your machinery equipment.

The new developed oil test case contains the test devices which enables engineers to test the most important parameters. This means a reliable indication about the performance of the engine oil at any time without a professional lab aside. Improved features on testing and handling are providing to the field engineer an easy to use test equipment with repeatable accuracy.
